Stuart Sewer Expansion Program Renews Sign Up and Save Incentive Program

Stuart, FL – The City of Stuart announces a ***new sanitary sewer sign up and save discount incentive program*** for those property owners who were unable to take advantage of the original sign up and save incentive program that was introduced in 2012.

By switching to sewer, the Stuart community reinforces its commitment to improving water quality through local initiatives. As septic tanks, particularly aging constructs are a major contributing factor of pollution in the local waterways, a joint effort by the community to switch from septic to sewer is fundamental in improving water quality long-term.

Since beginning the city-wide sewer expansion program in 2012, nine (9) of the fifteen (15) neighborhood basins have been completed, providing more than 1,133 properties with the opportunity to convert the existing septic system to central sewer service. To date, more than 662 property owners have connected to the City's sewer system.

The new sign up and save discount incentive program offers the following options to eligible property owners:

- A \$2,000.00 discount for a one-time payment of \$6,000.00.
- A \$1,000.00 discount for taking advantage of the \$7,000.00 monthly payment plan option billed over a 10-year period.

In addition, the program offers a ten percent (10%) discount on the remaining balance to property owners who have taken advantage of the ten-year payment plan discount via monthly billing.

This new incentive program began on October 1, 2016 and will end on September 30, 2017.

To find out more about this new opportunity please contact the City's Customer Service Department at (772) 288-5318.
