Schedule for downtown Riverwalk and courtesy dock repairs

Stuart, FL – In early September, wave action caused by Hurricane Irma left the downtown Riverwalk and public courtesy dock damaged and unavailable for public use. City staff has since worked diligently to award contracts to bring these heavily utilized public facilities back into service.

Repairs will be completed in two phases starting with the Riverwalk, which will allow for public access throughout, even while minor repairs are completed on the courtesy dock.

Construction to the Riverwalk will consist of repairing the eight (8) foot wide pedestrian boardwalk, concrete piles, and reattaching the HDPE fire line. The courtesy dock repair work includes the removal and replacement of several stainless steel pile guides and associated pile rollers, furnishing and installing a whaler with black vinyl side rubber, repairing spalled concrete corners of the finger piers, and reattaching a flipped finger pier to the dock.

Repairs to the boardwalk area have already commenced and is anticipated to be complete by January 12, 2018. Blue Goose Construction, LLC was awarded the contract by the City for a cost of \$49,858.19.

Courtesy dock repairs are anticipated to start in January, to be complete by February.

For questions or additional information, please call Mr. Marc Rogolino, Capital Projects Coordinator for the City of Stuart, at (772) 221-4700.
