Kiwanis Park Solar Canopy Construction Schedule

Stuart, FL – Starting today, FPL contractors will begin construction of a new solar canopy structure at Kiwanis Park. This work will impact a portion of parking availability at the park through project completion; however, facilities within the park itself will not be affected.

Construction is expected to be completed in the middle of March, with full parking restored to the park at that time. The project will be completed in three phases, starting with the southernmost parking spaces, parallel and adjacent to the railroad, and concluding with the northernmost section of the lot.

Additionally, the City of Stuart will be finalizing the installation of a new playground shade structure at Kiwanis Park within the next couple of weeks. By staggering and phasing these projects, the City has mitigated impacts to the park over the course of construction.

Following completion of all scheduled work, residents and guests can look forward to enjoying the barrier-free playground under the protection of shade, while their cars are afforded the same relief from the sun.

For questions or additional information, please call Ben Hogarth, Public Information Officer for the City of Stuart, at (772) 288-5333.
