## **NOTICE OF PUBLIC INFORMATION MEETING**

Dear Property Owner,

On August 22, 2011 the Stuart City Commission authorized a new sewer expansion program in the City of Stuart and its unincorporated utility service area.

The proposed sewer expansion program will expand sewer service into areas of the City using low pressure sewer system piping along road right-of ways and utility easements.

You have received this notice because you are listed as a property owner in the area in which sewer expansion is scheduled for 2019.

This program does not mandate connection to the new sewer system and you will only be required to connect should you elect to do so.

A public information meeting is scheduled for **Saturday, January 12, 2019** in the **Stuart City Commission Chambers located at 121 SW Flagler Avenue in Downtown Stuart from 9:00 AM until noon.**

At this meeting the City will present information that explains and answer questions about construction, timing, cost and financing options. After the formal presentation, representatives will be available to answer any questions property owners may have regarding the low pressure sewer system and individual grinder pump installation on their property.
